My son/daughter requires a study, can both parents stay?

We are able to accommodate one parent or caregiver per admitted child. Accommodation for other family members is available on-site at the Nightingale Apartments. Please call (02) 9356 0200 for more information or to book.

I'm concerned my child will be upset by the test.

Although the test is pain-free, it can cause some children distress. You are more than welcome to make arrangements with our Sleep Centre to bring your child in prior to their test to show them the area and what sensors will be used. Otherwise, it can be helpful to attach stickers to their foreheads and chest to demonstrate how it will feel.

Are meals provided?

Yes. Both dinner and breakfast are provided. The accompanying parent of a child patient is also given dinner and breakfast.

What time do I arrive?

Your time of arrival will depend on the nature of your sleep study. We will confirm your admission time prior to your arrival.

Where do I park?

Patients of the Sleep Centre have free-of-charge overnight access to our visitor parking. Enter through the driveway of 18 Roslyn Street.

Where do I check in?

Patients of the Sleep Centre need to check in to St Luke's Private Hospital reception.

What happens if I can't sleep?

Sleeping in an unfamiliar space can create restless sleep or difficulty falling asleep. For this reason, we recommend bringing along your own pillow and, for children, any sleep aides or toys that they are familiar with.

Please be assured that even with a restless, irregular sleep, a study can still be performed and important data gathered.

Is it painful?

No. Testing wires are attached to your head, forehead and chest via a glue and patch. This is not a painful procedure, but can be distressing for young children.
